WITH FIXED BAYONETS

Militia Disperse a Cleveland Mob and Arrest Ringleaders.

CARS STONED IN SUBURBS.

Boycott Movement Has a Tight Grip on the Outlying Districts—Military to Be Retained Until All Danger Is Past.

Cleveland, July 31.—Beyond an outbreak in the Polish settlement, which was promptly suppressed by the militia, the day passed without serious trouble. Many cars were stoned in the suburbs, but so far as learned no one was injured. A mob which formed on Fleet street in the south end of the city was dispersed by the militia with fixed bayonets and a number of the ringleaders arrested.

Several Cleveland military companies will probably be relieved from duty by Adjutant General Axline. The troops which have been brought here from other cities will be retained until all danger of rioting is passed. Even then the outside companies will be withdrawn gradually.

The boycott movement has reached a point where it is almost impossible for any one who rides on the Big Consolidated cars to purchase the necessities of life. This is especially true in the outlying districts of the city.

"Do you ride on the Big Consolidated cars?" is the almost universal question put to a would-be purchaser of the merchants. If the answer is in the affirmative, the customer is politely informed that he or she cannot be served.

Every branch of the Big Consolidated system was in full operation, but aside from the Euclid and Cedar Avenue lines, the cars carried very few, if any, passengers. That the boycott has become a most important factor in the struggle between the company and its striking employees, is now admitted on all sides.

The Big Consolidated officials say that the movement is bound to fall of its own weight within a few days. On the other hand the labor union leaders declare that the boycott has just begun and when it reaches its full scope all classes and interests will be affected. Not only are the Big Consolidated lines in Cleveland to be boycotted, but all street railways and other properties in other cities in which President Henry Everett is in any way interested, the strike leaders state, will also be reached and taboed.

Verdict Rendered in Hawley Case.
Cleveland, July 31.—Coroner Simon rendered a verdict in the case of Ralph P. Hawley, the non-union conductor who shot and killed Henry Cornwell, finding that Hawley did the killing without provocation or excuse. Hawley is in jail.

Tailors on Strike.
New York, July 31.—At a meeting of tailors employed in the shops in the Brownsville district of Brooklyn it was agreed to declare a strike. The meeting was addressed by Joseph Baroness, who advised and instructed the men how to carry on the strike, cautioning them against violence. As a result of the meeting 1,500 garment workers will go on a strike. This number will include operators, finishers, basters and pressers. The tailors demand a 10-hour day, a graded scale of wages, and an increase in pay. They also demand that a working week shall not consist of more than 59 hours.

Chicago Brickmakers Strike.
Chicago, July 31.—While the strike of the local brickmakers may result in calling out the Building Trades union of the city, numbering about 50,000 men, the conference held between the business agents representing the various crafts terminated without a definite decision in regard to the matter. With one accord the delegates refused to disclose the incidents of the meeting, but it is believed the majority of the building trades argued against striking in sympathy with the brickmakers.

Messenger Boys Strike.
Boston, July 31.—Messenger boys of the Boston District company started a strike here to enforce a demand for an increase in the rate per message under which system they are paid. About 60 boys joined in the movement at first, but the number increased rapidly until nearly all the messengers of the company were involved.

White Cloud, Mich., July 31.—A threshing machine engine exploded near Big Prairie. Charles Haight, Alpha Haight, Charles Crabtree, George Overly, Cecil Priest and Raymond Howe were killed. Oscar Evans and George Haight were severely injured.

GOVERNOR JONES' VIEW.

Reply to Query as to Cause of Lynchings in the South.

New York, July 31.—Governor D. M. Jones, of Arkansas, replying to a query as to the cause of lynchings in the south, said: "In my judgment the so-called delays in the administration of criminal law so far as Arkansas is concerned have not been the cause of the lynching of any person accused of crime. The lynchings in this state have generally been in cases of rape, and attempted rape, and especially when the assault has been made by a negro upon a white woman."

"This crime is so heinous and revolting that all the laws in the world, no matter how severe the punishment or how speedy its infliction, can not, in my judgment, prevent lynching when the accused falls into the hands of the enraged mob."

"I can suggest no remedy because there is none, except the cessation of the crime itself. Of course, this is to be deplored, because it is always best that the law should be permitted to take its regular course, but as long as human nature remains as it is the conditions in this respect will not be improved."

President Insists on Harmony.

Washington, July 31.—General Miles has every reason to believe that he will be something more than a commanding general in name only. It has been stated that General Miles is preparing his case and that when the new secretary takes office he purposes to demand his rights. This is not true. He simply intends to resume his former duties under the regulations. In this way it will devolve upon Secretary Root to raise a question as to General Miles' duties and responsibilities, and not the general. General Miles does not expect anything but harmony, nor does Mr. Root. Mr. McKinley insists upon it.

National Bank in Honolulu.

San Francisco, July 31.—The first and only national bank outside of the continental boundaries of the United States is about to be established in Honolulu. Colonel McFarland, who was chamberlain to Queen Liliuokalani, has arrived from the islands to perfect the organization of the bank and later to return with gold coin representing the stock subscribed for by San Francisco and New York capitalists. A charter for the bank has already been procured from the United States government.

Latest From Mauna Loa.

San Francisco, July 31.—The latest report from the volcano of Mauna Loa, received by the way of Kalia, is to the effect that a great change took place in the course of the lava flow on the night of July 18. The mighty stream of burning lava which was steadily flowing toward the town of Hilo and threatening its destruction, has fortunately been diverted in its course, so that the danger to life and property is less imminent than at the time of the previous mail advices from here.

Railway Trouble Settled.

Montreal, July 31.—P. M. Arthur, grand chief of the Brotherhood of Locomotive Engineers, and F. P. Sargent, grand chief of the Brotherhood of Locomotive Firemen, have arrived here and after a conference with the chairman of the engineers' and firemen's grievance committee, a satisfactory adjustment of the matters in dispute with the Grand Trunk railway, was arranged. The new scale will probably be given out in a few days.

Subonic Plague.

Bombay, July 31.—At Poonah, capital of the district of that name in this presidency, there have been 59 cases of plague and 56 deaths from that disease in 58 hours. At the cantonment in the city 31 cases of the plague and 261 deaths have been reported. Several fresh cases have occurred among the Europeans. The meteorological conditions indicate the close of the monsoon and the prospects are ominous.

Soldiers For the Philippines.

Washington, July 31.—The enlistments for the Philippines to date have reached a total of 7,567. Colonel Pettit's regiment, the Thirty-first, has 1,309, just one short of the full quota. The next is Colonel Bell's, the Twenty-Seventh, with 1,176, and Colonel Gardner's, the Thirtieth, with 1,056.

Rear-End Collision.

Winslow, July 31.—A light engine ran into the rear end of the freight train at Dennison, a sidetrack a few miles west of here. Brakeman Constable, who was in his caboose, and Engineer McLeod, were killed, and Conductor M. H. Frame seriously injured.

Universalists In Session.

Saratoga, July 31.—The Universalist National Summer meeting in session here was addressed by the Rev. D. H. Shinn, of Kansas City, Mo., on "Affirmations of Universalism."

A PANIC AT OLD POINT

Forty Cases of Yellow Fever at Hampton Soldiers' Home.

SIX DEATHS ARE REPORTED

Trolley Road Along the Beach, Crowded With Excursionists, May Be the Means of Spreading the Fatal Disease.

Washington, July 31.—According to advices received at the war department there has been a total of 40 cases of yellow fever at the National Soldiers' home at Hampton, Va., and six deaths. Adjutant General Corbin and Major Johnson, assistant adjutant general, were at Fort Monroe and were present when Surgeon Pettus made his report to Lieutenant Colonel Dewitt, regarding the outbreak of yellow fever at the soldiers' home.

General Corbin says that from all accounts there is little doubt that the conditions are serious and there is no telling how far the infection may have reached. There is a trolley road along the beach for a distance of more than six miles and excursion parties have been coming to Old Point and adjacent places and have taken the trolley to Newport News and to the soldiers' home. Many of them have mingled with the soldiers.

General Corbin says that one theory of the way in which the fever might have been brought to the home is that one of the soldiers recently visited Santiago. He returned some time since suffering with what the physicians thought to be dengue. It seems it was not until the inmates of the home began to die that the disease was discovered to be yellow fever.

General Corbin says there is not the least question about the character of the disease, physicians who were present at the post-mortem on some of the victims declaring that yellow fever was surely present. The marine hospital officers are astounded at the presence of yellow fever in that locality. The last epidemic of the disease occurred at Norfolk in 1855, being brought into port on the steamer Ben Franklin on June 7 of that year, and in the epidemic which followed there were 1,800 deaths.

The steamer from Old Point has arrived here crowded with passengers.

HINT TO UNCLE SAM

To Restore Order in the Disturbed Dominican Republic.

Havana, July 31.—The Diario de la Marina comments upon an interview with Senor Nolasco, the secretary of General Maximo, published in La Lucha, in which Nolasco is quoted as saying in regard to Santo Domingo that he would not be surprised at the fulfillment of his hopes that things there will be quickly arranged, and that the soldiers of some humanitarian nation will impose not only order but civilization and culture there.

The Diario says Nolasco refers to the Americans and that it would not be surprising if the Americans should think, after reading such a statement from a representative of Cuba, that if it is the Spaniards and not the Cubans who defend the independence of Cuba.

Ten policemen have been discharged from the force for having petitioned for the reappointment of former Police Captain Aranda.

Decision in Ritual Cases.

London, July 31.—The archbishop of Canterbury, the Most Rev. Frederick Temple, D. D., rendered a decision in the ritual cases, which the archbishop of New York, the Most Rev. William Dalrymple McLanan, D. D., heard in May. The archbishops declare that while far from saying that the use of incense and the carrying of lights in procession are unsuitable or undesirable accompaniments of divine worship, they are obliged, in accordance with the prayerbook, to come to the conclusion that these adjuncts are neither enjoined nor permitted by the law of the Church of England. Therefore, the archbishops add, though they may be used to sweeten a church or purely lighting purposes, they urge all the clergy for the sake of the peace of the church to discontinue their use as part of the services.

Valencia Arrived Safely.

Washington, July 31.—General Otis has informed the war department of the arrival at Manila of the transport Valencia. There were no casualties en route.

Will He Win?

London, July 31.—"Teddy" Hale, the Irish bicycle racer, started from Holborn viaduct here in an effort to ride 100 miles daily for a year, Sundays excepted.

DEATH OF A NOTED WOMAN.

Mrs. Kate Chase Sprague Passes Away at Her Home Near Washington.

Washington, July 31.—Mrs. Kate Chase Sprague died at Edgewood, her country home, near this city.

Mrs. Sprague was the wife of a former governor of Rhode Island and the daughter of the late Salmon P. Chase, governor of Ohio, United States sena-

tor and chief justice of the United States supreme court. At her bedside were her three daughters, Miss Kittie Sprague, who lived with her mother, Miss Portia Sprague, of Narragansett Pier, and Mrs. Donaldson, of Brooklyn, N. Y.

The funeral arrangements have not been completed, but the remains will probably be interred at Columbus, O., her father's old home.

Prize Money Paid.

Akron, O., July 31.—A claim against the government for prize money earned during the year 1799, has just been paid. Mrs. R. L. Ganter, of this city, an heir of one of the naval heroes of the war of the revolution, has just received a check for \$46.17, her share of the money.

Instantly Killed.

Canton, O., July 31.—Fred Hoffman, 26, a watchmaker, was struck and instantly killed by a Cleveland Terminal and Valley freight train. He had just left his betrothed and was sitting on the platform waiting for a passenger train when struck by the freight.

Struck a Good One.

Upper Sandusky, O., July 31.—A Findlay firm of oil dealers has drilled in a good well a short distance south of Carey. It is reported flowing at the rate of 100 barrels daily. The location is said to open up a new territory, most of which has been leased.

New Incorporations.

Columbus, O., July 31.—The Western Reserve Academy, Hudson; the Union Chapel United Brethren Church, Wren; the Broad Street Laundry company, Columbus, capital stock \$5,000.

Lodged in Jail.

Portsmouth, O., July 31.—Charles Mershon, of Arion, has been lodged in jail charged with furnishing medicines that caused the death of Miss Almada Peach.

Victim of Heart Disease.

Blanchester, O., July 31.—Mrs. Thomas South, 50, fell dead at her home in Newtonville. Heart disease was the cause.

Census Supervisor.

Washington, July 31.—Frank M. Martin, of Caldwell, O., has been appointed a census supervisor.

Gold From Alaska.

Seattle, Wash., July 31.—Gold of the placer and the quartz kind came from Alaska and the British Yukon on the steamer Alki, which has arrived here, to the amount of about \$300,000. Probably one-third of the amount is Treadwell product.

Elevated to the Peerage.

London, July 31.—It was officially announced that Sir Julian Pauncefote, British ambassador to the United States, who was the head of the British delegation to the national conference at The Hague, has been elevated to the peerage.

Homeward Bound.

Manilla, July 31.—The United States transport Grant sailed for the United States having on board 481 men of the Idaho regiment, 540 of the North Dakota regiment and 274 of the Wyoming regiment.

President Takes a Walk.

Plattsburg, N. Y., July 31.—The president took his customary morning walk in company with Dr. Rixey. Mrs. McKinley continues to improve, and her condition, Dr. Rixey said, was very satisfactory.

Chicago, July 31.—Mrs. Mabel R. Littell, daughter of General Green B. Raum, former pension commissioner, was granted an absolute divorce from her husband, J. Reed Littell, a prominent patent attorney of New York city. Desertion was given as the ground for divorce.

DYNAMITE OUTRAGES.

Capital of Korea Thrown Into a Panic by Terrific Explosions.

A PRINCE AT BOTTOM OF IT

Members of the Royal Household Marked For Slaughter—Six Women Among the Seventeen Conspirators Arrested.

San Francisco, July 31.—Advices from Seoul, the capital of Korea, give details of a series of dynamite outrages there, evidently the work of a band of conspirators whose head is Prince Pak-Yung-Hyo and whose efforts were directed to demolishing the homes of the premier and members of the royal household department.

The city of Seoul was thrown into a state of great excitement by six terrific explosions. An investigation disclosed the fact that attempts had been made to wreak vengeance on Sin-Ko-Sin, the present premier, Pak-Yi-Yang and Pak-Chung-Yong, members of the royal household department, by blowing up their residences.

The explosions were reported in different parts of the city on three different occasions, the last being in the house of Prince Pak, which demolished a part of the building, injuring two coolies.

Police investigations in the latter case led to the arrest of 17 persons, of whom six were women. Two of those arrested were the injured coolies, and to the astonishment of the police it was discovered that they made the bombs used in the outrages in the house of Prince Pak and were engaged in making more when the explosion occurred. Of the other 15, one has confessed that the whole of the plot was hatched at the house of Prince Pak-Yung-Hyo, and that some of the men who are under arrest are the men who have been laying the bombs about in the streets.

TRIAL OF FEUDISTS.

By Agreement of Counsel, One of the Defendants Is Admitted to Bail.

Barbourville, Ky., July 31.—By agreement of counsel, Wiley Baker has been given bail in the sum of \$5,000. General Gerrard, of Manchester, is security. The date of his trial is not decided. Will probably be at the December term.

Jim Baker's case will be promptly called, as both sides are ready. It will doubtless be disposed of at this term. His mother, Mrs. Tom Baker, is among those attending from Clay county.

Won by Bald.

New York, July 31.—The one-mile match race between Arthur A. Zimmerman and Eddie C. Bald at Vailsburg, N. J., for a "guaranteed purse" of \$1,000 and a percentage of the gate receipts was a poor exhibition. The Jersey man had the better of the start, but Bald went right up to him in a second and for three laps out of the four constituting the mile with not more than the width of a tape line between Eddie's leading wheel and "Jimmy's" hind one. This trail was kept up until after the fourth lap had been finished when Bald shot ahead.

Fatal Duel.

Knoxville, Tenn., July 31.—A fatal duel took place across the line in Letcher county, Ky., William Smallwood killing his uncle, Clelland Smallwood, and the younger man himself being fatally wounded by his uncle. The men had been at daggers' points for two years and a recent quarrel brought matters to a head.

Evans Not Disturbed.

Chattanooga, July 31.—A letter has been received in this city from Pension Commissioner H. Clay Evans, in which, referring to reports concerning his removal, he says: "You can say to my friends I am not losing any sleep over these things. If I should go out I will go with a clean record and a clear conscience."

Movements of the Newark.

Lima, Peru, July 31.—The United States cruiser Newark will probably remain at Callao for a fortnight, and then proceed to San Francisco to receive Admiral Kautz. Afterwards she will proceed to Honolulu, and according to some rumors, may go to Manila.

Players Arrested.

Indianapolis, July 31.—The Hoosiers and Millers tried to play ball, but were arrested at the start of the Hoosiers' first half inning, the Millers having been retired. The law will be tested on a new issue.

Missed From His Pew.

Champlain, N. Y., July 31.—President McKinley did not attend church. Mrs. McKinley continues to improve.

WEATHER FORECAST.—Fair and continued high temperature to-night and Wednesday.

THE Public Ledger and local correspondent of the Commercial-Tribune have evidently been misinformed about that find at Blue Licks. The discovery of that mastodon and stone pavement was written up at length and published some months ago.

It is confidently asserted that the colored Republicans in many parts of Kentucky will not support General Taylor for Governor, under any circumstances. More than that they are organizing clubs to oppose him. What a mix-up there promises to be in Kentucky politics next fall.

SOME Republicans are quite anxious for ex-Governor Brown to make the race against Senator Goebel, but all is not serene in the g. o. p. camp and Mr. Brown, if he should get in the race, may surprise 'em by polling a great many votes that Gen. Taylor fully expects to receive.

HOTELS, livery men and many other lines of business are feeling depreciation in their trade as a result of the combines and are bitter on the trusts. Eleven starch factories have been merged into one. Many cities feel heavily the effects of these combinations. The starch trust alone threw several thousand people out of employment. They will have plenty time to get out and yell for the administration and high tariff, "the breeder of all trusts."

AN Eastern commercial tourist tells of two of his fellow traveling salesmen, one of whom was getting \$5,000 a year, and the other \$4,500 for the splendid business they had worked up in years of travel and labor. A trust got hold of the factories they represented, and now the places of both of these men are filled by one person, who gets all of \$18 a week. That's an instance showing how the combines "advance" wages. It can probably be proved that the goods this trust now monopolizes are sold at a big advance over the old price. Nobody profits by the change except the combines.

GOEBEL'S TRUSTWORTHINESS.

An Instance Showing the Esteem in Which He Was Held by Gov. Stevenson.

[Augusta Chronicle.]

When the late Gov. John W. Stevenson placed the property of his wife and daughter in the hands of William Goebel as trustee, without bond, it was one of the very strongest proofs of the latter's worth as a man that one man could give another. Gov. Stevenson, as everyone knows, was one of the ablest and best men in the State. When he was an old man, Senator Goebel, then a boy, began the study of law with Gov. Stevenson. His success in his practice was phenomenal. He was soon taken into the firm, and his office door still bears the old sign: "Stevenson & Goebel." Gov. Stevenson, always a prudent man, made a will, and by its terms placed the property of his wife and child in the hands of William Goebel as trustee, the will specifically stating that he was not to give bond. The property, consisting of \$250,000 or more, is still in the hands of Senator Goebel.

What greater proof can be given of a man's worth? Goebel, without influential friends, a young man, to be thus trusted by one so careful as Gov. Stevenson is unparalleled in the records of this or any other time and, better, Goebel is still the trustee of Mrs. Stevenson.

THE PHILIPPINE QUESTION.

No Right to Shoot Our Civilization and Religion Into those Innocent People.

[Enquirer.]

When Colonel Robert Ingersoll was at the Grand several months ago to lecture in this city, he said to the Enquirer man in a conversation that was not printed, in relation to the Philippine question:

"I would like to put up a big signboard for the benefit of the administration and worded: 'Stop! Turn back. This is a blunder tantamount to a crime. We have no right to shoot our civilization and religion into those innocent people.'"

Colonel Ingersoll said General Miles is a great soldier, and declared that he was the greatest living American soldier, but had been badly treated. He said that if General Miles had been in full charge of the war with Spain much suffering would have been averted and many a soldier's life saved, and rotten beef would not have been a scandal in the land. Colonel Ingersoll said further that it had been the original plan of the administration to invest Havana, but that General Miles dissuaded the President from what would inevitably have been a most disastrous campaign, entailing the loss of at least 50,000 of our troops in an attempt to take that splendidly fortified city, then well provisioned for a siege.

HOUSTON, TEXAS, July 29.—In a speech in Hunt County Congressman R. C. DeGraffenreid said:

"It is not courageous, but cowardly, for a great and strong nation to murder a weak one. We made England bow for trampling on the shadow of the Monroe doctrine in the Venezuelan question; we hinted to Napoleon, and he got out of Mexico. The Monroe doctrine is to be discarded and the American eagle to become a foul buzzard sitting about on the Philippine mountains waiting to devour the carcass of a decaying nation."

Electric Park.

The entertainers at this popular amusement place were greeted with a crowded house last evening. The audience was enthusiastic and everybody went away well pleased with the attractive bill presented.

The program opens with Miss Kittie Waldron in songs, followed by "Rastus," who renders some of the new coon songs and did some dancing that was very clever. Will Holmes' mandolin specialty was very pleasing. Seeker, Wilkes and Seeker, Jr., (Rastus) in their sketch which was so popular over the Eastern circuit came up to the mark and scored the success that is justly due them. During this sketch quite a number of the newest songs were introduced. "Lew Seeker's Single" had some good "patter" and good singing in it and he had the audience with him to the end. Holmes and Waldron introduced a number of instruments in their musical specialties and delighted the audience. There is a good show this week and you want to go. Reserved seats on sale at Nelson's and fifteen cents pays car fare and admission.

A LANDSLIDE at Backbone, Va., delayed all traffic on the C. and O. twelve hours Sunday.

THERE was a good big crowd at Ruggles camp meeting Sunday. Good order prevailed, except that the police disturbed a meeting some of the young men inaugurated out in the woods. The boys escaped, but the police captured their gambling layout. The management want it distinctly understood that disorder of any kind will not be tolerated on or near the grounds.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying Electric Bitters, and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them. Only 50c. a bottle at J. J. Wood & Son's drug store.

MR. JAMES PIPER, one of Maysville's best and most industrious mechanics, has been appointed Superintendent of the Ohio Valley Pulley Works, in place of Mr. D. A. Sprinkle who resigned. The latter goes to Europe this month to take charge of a factory for the Fay & Egan Company of Cincinnati.

REV. DR. CAVE, President of the Bible College, Lexington, occupied the pulpit of the Washington Christian Church Sunday in the absence of Dr. Buckner. Dr. Cave preached at the union services at the Washington Presbyterian Church Sunday evening. He is a very able man and forcible preacher and his audience were much impressed with his sermon.

AN ice cream supper at Bentonville, back of Aberdeen, broke up in a row and a general fight followed. Knives were flourished and pistols fired. Half a dozen others were more or less injured.

DON your thinking cap and try for the elegant solid gold, pearl handle pen Clooney, the jeweler, offers as a prize for the first correct answer to the riddle published elsewhere in his display advertisement. It will cost you nothing to try as often as you wish in the time allotted, each answer to be made separately. Read the advertisement for full particulars.

REV. M. B. ADAMS, formerly of Lewisburg, is a member of the Inter-Denominational State Temperance Committee. At a meeting of the committee in Lexington Monday the following resolution was adopted:

Resolved, That the committee make a statement for publication setting forth its position as being non-partisan but anti-saloon, and giving the history of the defeat of the local option bill in the last Legislature, with the names of those who favored and those who opposed the bill, and appeals to the people of the State to elect such legislators and such State officers as will be favorable to our local option bill.

A committee composed of Dr. Kerfoot, Mr. Adams and Dr. Young was appointed to prepare the statement for publication and to attend to its circulation.

VOLTAIRE,

The great French philosopher, once asked this riddle:

What is the longest and yet the shortest thing in the world; the swiftest and the slowest; the most divisible and the most extended; the least valued and the most regretted; without which nothing can be done; which devours everything, however small, and yet gives life and spirit to everything, however great?

For the purpose of ascertaining how many people read advertisements, and, incidentally, to secure attention to subsequent announcements,

REDUCE THE FARM AREA.

An Object Lesson for Farmers in All Sections of the Country.

[Exchange.]

The days of large farms have gone by in the more thickly populated States of the Union, and it would be well for farmers to learn as fast as they will the truth of the old saying, which is in substance, that one acre well cultivated is more profitable than a dozen indifferently tilled. If every farmer in this country could see the plots of made ground near New York city, less than acre in extent, that yearly support in good shape a family of several persons, there would be a cutting up of farms that would astonish the world. These small farms, (?) many of them, consist simply of soil carted onto bare rocks, and in some instances the soil is barely three feet deep. By the use of hot beds and cold frames these plots of ground are cropped nearly the entire year. In early summer it is no uncommon sight to see three or four men at work on each of them.

Here is an object lesson for farmers in all sections. In the South, for example, there is scarcely a section where two or even three crops cannot be raised from the ground each year, yet it is the exception rather than the rule when this is done. If farmers can bring themselves, especially those who are near fair markets, to handle five acres rather than twenty, and ten rather than forty, devoting all their time and energy to getting the most out of this small area, they will make more money with less hard work than now. Concentration is certainly an application to farming as to other industries.

PUBLIC SALE.

Notice is hereby given that on

SATURDAY, AUGUST 12th, 1899,

at 2 o'clock p. m., at the residence of Oscar L. King, on the Maysville and Mt. Sterling turnpike, near Milwood, I will sell at public auction to the highest bidder TWO SEPARATE TRACTS OF LAND, to-wit: One contains 170 ACRES, more or less, located on the east side of the Maysville and Lexington railroad, at Mill Creek Station, was conveyed to O. L. and J. R. King by Thomas Luttrell and wife by deed of record and is where John R. King now resides. The other contains eighty-nine acres, more or less, located on the West side of the Maysville and Mt. Sterling Turnpike Road, was conveyed to said O. L. and J. R. King by Thomas Luttrell and wife and is where said O. L. King now resides. Sale will be on credit of one, two and three years, the purchasers to execute bonds with good personal security, bearing 6 per cent. interest from day of sale until paid, lien being retained on the land as an additional security. The purchasers have the right to pay cash if they so desire. Purchasers have privilege of seeding this fall and full possession between March 1st and 10th, 1900.

This is an opportunity for any person desiring good Mason County land to acquire same at a fair price. Assignee of O. L. and J. R. King. C. F. Taylor, Auctioneer. 61d

The Best 50c. Linen Skirt at 39c.

You have often paid 50c. for a skirt not the equal of these. We have known them to sell elsewhere for 75c. They are made of heavy linen and have a full three and a half yard sweep. These skirts are not "skimped." They have a "hang" about 'em that shows they were built by makers of well-fitting skirts. Merely to avoid summer dullness, we've marked 'em 39c. A regular \$1.50 White Pique Skirt is marked 98c.

Newly-Arrived 15c. Lawns Are Now 10c.

Your advantage in having our buyers visit New York City is well shown in this newly-arrived lot of Lawns. They come in dainty Dimities, exquisite corded Mulls and Muslinettes. The patterns are the very latest shown in the Eastern markets. Your saving is just 5c. a yard, for they're marked 10c. instead of 15c. Those 10 cent Lawns at 6c. are selling like the proverbial hot cake. You had better come quickly.

Great Bargain in Ladies' Night Gowns.

This was a most fortunate purchase, indeed. These Gowns were made to sell at 75c. There were just thirty dozen. We took them all at a price which, with a small profit, sells them to you at 49c. They are made of soft, sheer Cambric and trimmed with superb Swiss embroidery and insertion. Do you need a gown? Here's one to your great saving at 49c.

A KENTUCKY COUPLE

And Their Adventures While on a Matrimonial Journey to West Union.

(West Union Defender.)

Quite an amusing incident happened at the Probate Judge's office Tuesday morning. Burdick Hughes and Miss Lizzie Patterson and Geo. E. Fry and Blanch Irwin, all bailing from the classic precincts of Lewis County, Ky., called at the office, and Burdick, in a bashful manner, informed the Judge that he and Miss Patterson wanted papers necessary to make them one. The Judge, as usual, asked him the necessary 101 questions and the license was issued.

Young Fry then stepped up to the desk, also took the oath and answered the questions necessary, which were recorded in the marriage record. Not until the license was filled out and handed him did the young man "catch on," when he informed the Probate Judge that he had no wish to become a benedict, and he was only of the opinion that he was being used as a witness to the granting of the license to the other party, and now the marriage record has several red lines marked on the page which contains the complete history of Fry and his best girl.

The quartette then repaired to the office of 'Squire Shumaker and the couple which had secured the license handed the papers to him with the request that he tie the knot. When the 'Squire informed the young man that it would cost him \$2 it almost took his breath away and he made a kick. 'Squire Shumaker asked young Burdick if he didn't think it worth \$2 to become the husband of the handsome young lady, to which the young man replied, emphatically, "No!" and the quartette indignantly left the office and started for Kentucky.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N. C. Trial bottles free at J. J. Wood & Son's drug store. Regular size 50c. and \$1. Every bottle guaranteed.

Messrs. C. C. Hopper and Geo. T. Hunter Succeed Col. Geo. C. McMurry at the St. Charles.

A change in the management of the new St. Charles Hotel took place this morning, Messrs. C. C. Hopper and Geo. T. Hunter succeeding Col. George C. McMurry.

The matter has been talked of for a week or so, but the negotiations were not finally closed until Monday.

The new proprietors are both popular gentlemen, with a large acquaintance throughout all this section. During the past year the St. Charles has been enlarged and greatly improved, and everything is practically new throughout.

The friends of Messrs. Hopper and Hunter wish them success in their new venture.

A HEADQUARTERS detective is investigating a case which is not only peculiar but pathetic. The story was reported by Miss Kittle Turner, the charming young daughter of George W. Turner, deceased. At the time of his death Mr. Turner held the position of assistant city chemist. He overworked himself during the recent smallpox epidemic and finally contracted a cold, which resulted in his death. Naturally his death was a great shock to his widow. Some two years ago Mrs. Turner gave a tintype photograph of her husband to one of those "photo enlarging" companies. It was the best picture she had of her husband. When she received the enlarged picture she was not satisfied with it and returned it. Since then she has been trying to secure the tintype without avail. It was not until after her husband's death that she made a decided effort to recover the tintype, but the company paid no attention to her repeated requests. She wants the police to aid her in recovering the picture.

The above is taken from the Cincinnati Times-Star, and is verified every few days at our Studio. Moral: Don't give your orders to agents. Leave them at CADY'S ART STUDIO, where the original picture will be safe and the enlarged picture will please you.

NEW ICE MACHINE

With Which it is Claimed the Article Can Be Manufactured at 50 Cents a Ton.

(Commercial Tribune.)

One cake of ice every minute is the record which D. L. Holden claims for the ice machine that he has just invented. The blocks may be of any size desired, varying according to the size of the machine. A machine that will turn out a ton a day in two-pound blocks every minute and a half will probably meet the needs of the ordinary individual in the dog days. But whether large or small, the inventor claims that his machine will not fail to produce the most cooling kind of ice with the accuracy and regularity of clock work.

Moreover, the new apparatus will manufacture its crystal product for one-third the cost of making ice by the processes now employed, and cheaper than it can be frozen on pond and river by winter weather. If the new invention does not do away with winter altogether, it will at least assert its usefulness as an ice maker. The inventor says that he can now make ice for 50 cents a ton in New York City or Chicago and for 40 cents in Philadelphia. In other places the price will vary according to local conditions, but it will not rise above three figures, except, perhaps, in Southern cities that are distant from a coal supply. Even here it will not amount to more than 60 or 70 cents a ton.

If Mr. Holden's claims are well founded they will undoubtedly result in an important modification of the ice business, which now involves a capitalization of many millions in this country. Artificial ice has already made its way into Northern cities, where it is sold in competition with the natural product. But its cost price when made by the process now employed is not less than \$1.65 per ton, and frequently rises to \$2.25 per ton.

Ice that is naturally produced, harvested in winter and stored in houses, costs the retail companies in the larger cities from \$1.25 to \$1.50 per ton. They sell it for \$3.50 to \$4.50 per ton. The difference between these figures represents the cost of handling and the profit of companies.

Companies have been formed in nearly all of the States east of the Mississippi to develop the new method of ice manufacture.

"OTIS."

Through London Sources.

London, July 31.—A dispatch from Manila says that the enemy attempted to re-capture Calamba, but were easily repulsed. One American was killed and six others wounded. The Filipino loss was heavy.

INTO ETERNITY

Two Murderers Were Sent by Electric Current at Sing Sing.

New York, July 31.—Louis Pullerson and Michael McDonald were put to death by electricity in Sing Sing prison. Pullerson, who was a colored man, was taken to the electric chair at 8:21 and a current 1,720 volts strong was turned on at 8:22. After 55 seconds he was declared to be dead by the attending physicians. McDonald was put to death at 8:42, a current of 1,710 volts being turned on at that time and it continued for 65 seconds.

Fire on Camp Ground.

Indianapolis, July 31.—A serious fire occurred at the Acton campmeeting grounds east of here. Five cottages were destroyed and the fire was prevented from spreading by the razing of adjoining buildings. With the cottages pulled down eight buildings were wrecked. Men, women and children were forced to run from the cottages within reach of the fire in their night clothes. The entire population became panic stricken and for 15 minutes the greatest confusion prevailed.

Capital Stock Increased.

Chicago, July 31.—At a special meeting of the stockholders of the Diamond Match company. It was unanimously voted to increase the capital stock from the present basis of \$11,000,000 to \$15,000,000. It was also voted to increase the number of directors from five to seven. Edwin Gould and James Hopkins were elected to the positions.

Hopkinsville, Ky., July 31.—Miss Fannie Goodwin, milliner at Fairview, this county, shot and mortally wounded Bryan Allegree. She charged that he wrote scurrilous notes, made remarks, wrote with chalk on the front of her store and cut offensive phrases in her window with a diamond. Miss Goodwin was released without bond.

High-Priced Cotton.

New York, July 31.—The first bale of the new crop of the Texas cotton grown at Sinton, Patricia county, and shipped by Governor Sayres, was sold at public auction in front of the Cotton Exchange for the benefit of the sufferers by the floods in Texas. It brought \$2,000.

The English "Society for the Prevention of Consumption" presided over by the Prince of Wales, was recently addressed by Sir William Boardman, who stated that it was definitely known that every case of consumption began with a germ communicated from some other case. There is no such thing as inherited consumption. There may be local weakness which tends to consumption, but the germ has absolutely to be planted in that weak spot before consumption can ensue. This ought to confront thousands of people who have "weak chests" or "weak lungs." They are not forerunners of this dread disease. All that is needed to bid absolute defiance to this deadly scourge, is to be able to strengthen the weak lungs, and build up a strong body. The answer to this need is found in Dr. Pierce's Golden Medical Discovery. It so purifies the blood and increases the blood supply, that disease is thrown off, and the weak organs are nourished into perfect health, which defies germs of every kind. People, given up by doctors, emaciated, bleeding at the lungs, with obstinate, lingering coughs, are being cured every day by the use of "Golden Medical Discovery." It is a strictly temperance medicine containing no alcohol, whiskey or other intoxicant.

LOUISVILLE TOBACCO MARKET.

Heavy Offerings Last Week and Prices Were Well Sustained—Sales Adjourned Until August 15th.

[Furnished by Glover & Durrett, Louisville Tobacco Warehouse.]

Sales on our market for the week just closed amount to 4314 bbls. with receipts for the same period 3084 bbls. Sales on our market since January 1st, amount to 105,631 bbls. Sales of the crop of 1898 on our market to this date amount to 105,482 bbls.

Under the very heavy offerings, prices have been well sustained. On Tuesday and Wednesday the market was decidedly strong and active and the latter part of the week while there was no material decline, the market showed some irregularity and the per centage of rejections was larger than usual. Good to fine grades of leaf have sold at prices ranging from \$14 to \$17. Since our last report good rains have prevailed through the greater part of both the burley and dark producing districts and the condition of the growing crop has been very much improved. Sales adjourned until August 15th, this being the annual vacation of the trade.

The following quotations fairly represent our market for burley tobacco 1898 crop:
